

What Some Of Our Representatives Are Saying

George Richmond-California

I have been with Greet America about four years and have experienced four of the most rewarding years of my working life. The management and personnel have always been there to go the extra mile to help make any project I have undertaken a success. With more than fifty years in the workforce, I have never been with a company with higher standards, integrity, and professionalism. Great Job Greet America, keep up the good work!

Bess Hood-Tennessee

I have worked for Greet America for about 12 years. It is the perfect job for me since I can work it around my personal life. I have chosen to do some traveling for Greet America that has helped me develop an independence that probably never would have happened. I have learned so much from each assignment that I have had with them. Each experience has taught me so much about just basic humanity. Greet America has always conducted their business with me in a very professional manner. I have always received contracts stating exactly what my job was and what was expected of me. They have always paid me in the time frame that had been stated in my paperwork. I would highly recommend Greet America.

Michael Bobbitt-Kentucky

I have been doing assignments for Greet America since December 1997. My experience has been exceptional in every respect. I have had interactions with many people and they have all been wonderful. Everyone is always friendly, courteous and efficient. Amazingly, there has never been a problem of any kind. I can only give Greet America my very highest recommendation.
